THE FIRST BIG THING

Over 600 billion web pages.

In fewer than 4,000 days,
we have encoded half a trillion versions
of our collective story and put them
in front of 1 billion people,
or one-sixth of the world's population.

That remarkable achievement was not
in anyone's 10-year plan.

if you only have time for one clue this year, this is the one to get...

we are not seats or eyeballs or end users or consumers.
we are human beings - and our reach exceeds your grasp.

deal with it.

the cluetrain manifesto

A powerful global conversation has begun. Through the Internet, people are discovering and inventing new ways to share relevant knowledge with blinding speed. As a direct result, markets are getting smarter—and getting smarter faster than most companies.

3. Conversations among human beings *sound* human. They are conducted in a human voice.

4. Whether delivering information, opinions, perspectives, dissenting arguments or humorous asides, the human voice is typically open, natural, uncontrived.

5. People recognize each other as such from the sound of this voice.

6. The Internet is enabling conversations among human beings that were simply not possible in the era of mass media.

7. Hyperlinks subvert hierarchy.

THE CLUETRAIN MANIFESTO

- Markets are conversations.

- Markets consist of human beings, not demographic sectors.

- The Internet is enabling conversations among human beings that were simply not possible in the era of mass media.

- People in networked markets have figured out that they get far better information and support from one another than from vendors.

- There are no secrets. The networked market knows more than companies do about their own products. And whether the news is good or bad, they tell everyone.

THE CLUETRAIN MANIFESTO

▪ In just a few more years, the current homogenized "voice" of business—the sound of mission statements and brochures—will seem as contrived and artificial as the language of the 18th century French court.

▪ Companies need to realize their markets are often laughing. At them.

▪ Companies need to lighten up and take themselves less seriously. They need to get a sense of humor.

▪ Getting a sense of humor does not mean putting some jokes on the corporate web site. Rather, it requires big values, a little humility, straight talk, and a genuine point of view.

WEB 2.0

Web 2.0 isn't a 'thing',
but a collection of approaches,
which are all converging
on the development world
at a rapid pace.

Though it lacks a precise definition, Web 2.0 generally refers to Web services that let people collaborate and share information online. In contrast to the first generation of Web offerings, Web 2.0 applications are more interactive, giving people an experience more akin to a native desktop application as opposed to a static Web page.

CNET News.com

Collective intelligence will be a key competitive advantage in the 21st Century. Never before has there been a better medium to tap the collective intelligence than the Web.

Society has grown up. We can and are thinking for ourselves. Experts play a very important role but they are no longer unquestionable. We are moving beyond fundamentalism.

The doctor, the policeman, the teacher, the politician, the priest, the car salesman - they are no longer above question.

That is why we are seeing such a reaction from the remaining fundamentalists. They can't bear the idea of a society thinking for itself.
Gerry McGovern

Flipping
the Funnel

Ocean's 12 is the sequel to the 2001 action comedy caper blockbuster Ocean's 11, which grossed nearly $200 million in the U.S. alone. Set three years later, this film has Danny Ocean expanding his gang of con artists with new members in New York City before they jet to Amsterdam, Rome, and Paris to pull off three separate heists. The critically acclaimed Ocean's 11 soundtrack won a BMI Film Music Award for David Holmes, who returns to helm the music of Ocean's 12, which is sure to be an exotic, hip, cutting edge and surprisingly underground as its predecessor.

TOP 50 REVIEWER   REAL NAME™

Warner Music presents the follow up to the award winning "Ocean's Eleven" which won the BMI Film Music Award and a nomination from OFCS for Best Original Score...this time we have a more suave and subtle sequel in "Ocean's Twelve", once again the pen of Dublin born David Holmes brings to the big screen his intricate talents of film scoring...showcasing vintage with a harder edge mixed with distinctive versatility.

Opening track "L'APPUNTAMENTO", performed by Ornella Vanoni is as smooth as silk, can't get any better than this Italian hit from the early '70s....Holmes goes international from Italy to France with themes from the '60s and '70s that work perfectly other highlights are "$165 MILLION + INTEREST(INTRO)" with the Round Up "LIFTING THE BUILDING"

freecycle™ fun fact

With the advent of emails, has our copy paper usage has gone up, down or stayed the same?

Answer: It has gone up by 40%!! And it's increasing a further ten percent a year. So much for the paperless society. The desire to print out all that extra information, coupled with

Welcome!

The Freecycle Network™ is made up of many individual groups across the globe. It's a grassroots movement of people who are giving (& getting) stuff for free in their own towns. Each local group is run by a local volunteer moderator (them's good people). Membership is free. To sign up, find your community by clicking on the region on the right. It will generate an automatic e-mail which, when sent, will sign you up for your local group and send you a response with instructions on how it works. Or, go directly to the Web site for your local group by clicking on your community's link on the left. Can't find a group near you? You might want to consider starting one (click on "Start a Group" for instructions). Have fun!

The Freecycle Network was started in May 2003 to promote waste reduction in Tucson's downtown and help save desert landscape from being taken over by landfills. The Network provides individuals and non-profits an electronic forum to "recycle" unwanted items. One person's trash can truly be another's treasure!

How does it work?

When you want to find a new home for something -- whether it's a chair, a fax machine, piano, or an old door -- you simply send an e-mail offering

Be like Dell?

Aaron Sagray sends us this scathing review of Dell's new Ditty (and the marketing thereof). Daring Fireball: Rhymes With Ditty.

update: of course, Dell sells a whole bunch of stuff. They have a market share that is nothing to complain about... but, just for a second, imagine if they decided to add some style as well...

RELINQUISHING CONTROL

… content will be more important than its container in this next phase [of the Web]… Killer apps, such as search, RSS and video-capture software such as TiVo—to name just a few—have begun to unlock content from any vessel we try to put it in.

- Associated Press CEO Tom Curley

But, obviously, the technology itself is not new, so what is new? *Openness*, I think, is what is going to be the big difference between Web 1.0 and Web 2.0. In Web 1.0, each site was a silo of information, information that users could not reach themselves. Every access of information had to be done through the site itself.

Web 2.0 is about open information, in the form of programming interfaces. That is, developers can hook into information formerly siloed and do stuff with it. They can include Flickr images on their site, suck down their del.icio.us bookmarks for all to see. These are simple ways of doing it, and are just the beginning.

$2.6 billion

We started with an initial company goal of being bigger than the biggest single Blockbuster store in the US. Today, the company's market value is twice as big as Blockbuster's. Netflix now boasts over 4 million customers and a market value of over $1.5 billion.

Verse of the day

" Be imitators of God, therefore, as dearly loved children and live a life of love, just as Christ loved us and gave himself up for us as a fragrant offering and sacrifice to God. But among you there must not be even a hint of sexual immorality, or of any kind of impurity, or of greed, because these are improper for God's holy people. Nor should there be obscenity, foolish talk or coarse joking, which are out of place, but rather thanksgiving. For of this you can be sure: No immoral, impure or greedy person—such a man is an idolater—has any inheritance in the kingdom of Christ and of God. Let no one deceive you with empty words, for because of such things God's wrath comes on those who are disobedient. Therefore do not be partners with them. For you were once darkness, but now you are light in the Lord. Live as children of light (for the fruit of the light consists in all goodness, righteousness and truth) and find out what pleases the Lord. Have nothing to do with the fruitless deeds of darkness, but rather expose them. For it is shameful even to mention what the disobedient do in secret. But everything exposed by the light becomes visible, for it is light that makes everything visible. This is why it is said: "Wake up, O sleeper, rise from the dead, and Christ will shine on you." Be very careful, then, how you live—not as unwise but as wise, making the most of every opportunity, because the days are evil. Therefore do not be foolish, but understand what the Lord's will is. Do not get drunk on wine, which leads to debauchery. Instead, be filled with the Spirit. Speak to one another with psalms, hymns and spiritual songs. Sing and make music in your heart to the Lord, always giving thanks to God the Father for everything, in the name of our Lord Jesus Christ. Submit to one another out of reverence for Christ. [Wives and Husbands] Wives, submit to your husbands as to the Lord. For the husband is the head of the wife as Christ is the head of the church, his
